

EVO-S Jumping Saddle: Soft sitting sensation – optimum freedom for the horse!

The new, state-of-the-art jumping saddle combines a comfortable, soft sitting sensation for the rider with exceptional freedom of movement for the horse!

Extra-soft sitting sensation: due to a wide, soft seat with pleasant inserts on the skirt and the very comfortable seat lining that runs smoothly into the saddle flap.

Optimum freedom for the withers: due to the cut back head of the saddle, the wider gullet plate and the saddle panel, which lets the trapezius muscle move freely.

Excellent freedom for the shoulder: due to the flexible tip of the saddle panel that snugly follows the anatomy of the horse.

Plenty of room for the spine: due to the high flexibility in the longitudinal axis, which also allows for an even contact area of the saddle on the horse's back

The new EVO-S Jumping Saddle is available in sizes 16" to 19" and in the colors Black and Havana. The horse-friendly saddle is available from selected Passier stockists. Addresses of the stockists can be found in the Store-Locator at www.passier.com.
